Teamwork★6 Committed★6

(\*)[Skills scale 0 (Basic) to 6 (Advanced)]

## Goal

Work as a web programmer in Backend, Frontend or as a FullStack developer.

## Knowledge

During my career I've been working and participating in multiple projects with different technologies that I've been learning, so I have knowledge in the following ones.

Backend	Basic knowledge in PHP with Laravel, Java with SpringBoot, Javascript with NodeJS, C# with ASP.Net y .Net. Basic knowledge in Python with Django and basic with Flask and FastAPI.
Frontend	I had strong knowledge in CSS with TailwindCSS, HTML y JavaScript. Good skills with React Hooks, Redux and NextJS.
Mobile	Basic knowledge in mobile development in Android with Kotlin and iOS with Swift
Databases	Databases SQL like Oracle, MySQL and PostgreSQL. Databases NoSQL like MongoDB.
Others	AWS services like EC2, S3, RDS, ECS. Linux server management.

## Formal Education

2019-2021	Software Design and Development <i>Tecsup</i>
-----------	--

## Language Skills

English	Intermediate VI
---------	-----------------

## Work Experience

2021	Web Developer - NATIVA E.I.R.L. From February to March I've been working as an intern building a Ecommerce web application to sell alpaca clothes. This platform was built with Python - Django, CSS, HTML and Javascript.
2021	Full Stack I worked in a FullStack Ecommerce project with NextJS (React) on the frontend and Django - DRF (Python) on the backend.

## Complementary Courses

2020	Scrum: Agile Project Development <i>Tecsup</i>
2021	Ingles: Intermediate VI <i>Tecsup/Conversa</i>
